

## Made in the USA

Spot Farms treats are proudly made in the United States using regionally sourced, high quality ingredients. To ensure exceptional quality, our treats start with USDA approved meats raised on family farms here in the United States. We then carefully cook all of our treats in small batches in our US kitchens, using simple, wholesome recipes your pet will love.

## All Natural, Human Grade Ingredients

Spot Farms treats are made with 100% all natural, human grade ingredients\*. This means that all of the ingredients that we use in our products are certified fit for human consumption. Because all of the ingredients used in our treats are all natural, our treats are free of artificial colors and preservatives. You won't find things like BHA, BHT, or any other chemical with strange abbreviated names in any of our treats.

## Wholesome, Healthy Recipes

In addition to using the best ingredients available, we also strive to deliver the best nutrition to your dog. That is why we use simple, honest recipes that start with meat as the main ingredient and are free of fillers like corn, wheat or soy. We make sure our treats are chock full of things that are good for your dog, like antioxidant-rich cranberries and Omega-3-rich flaxseeds.

## Supporting our Farmers

Spot Farms is a proud member of 1% for the Planet, an organization that facilitates partnerships between brands and highly vetted environmental nonprofits. Each year, we donate 1% of all sales to nonprofit partners that help support farming and agriculture in the USA.
